

Features:

- Pre-wired for easy installation on the RS-485MS-2W module

SymCom's Model RS485-RS232 allows RS-485 devices to be connected to a PC via the RS-232 (serial) port. The converter provides convenient terminal blocks for making signal and DC power supply connections. An optional power supply may be required for laptops or other computers with low power serial ports, or for very large networks.

Specifications

Functional Specifications	
Signal conversion	RS485-RS232
Input Characteristics	
Current (when connected to optional external power source)	125mA
General Characteristics	
Ambient Operating Temperature	-20° to 50°C (-4° to 122°F)
RS-232	DB-9 Female Connector
RS-485	Terminal Block (with wiring and plug attached)
Weight	.9 oz.
Enclosure	Polycarbonate
Torque (max, if applicable)	3 in.-lbs. (max.)
Wire AWG	18-24 AWG shielded twisted-pair cable
Dimensions	1 ¼" H x 3 ¾" W x 5/8" D converter unit only 1 ¼"H x 63 ¾" W x 5/8" D total assembly length
